Exec Roll call / Planner RRC roll call / Div Dispatch Roll call:

Effective April roll call, the Division Dispatch will only be a radio roll call from here on out.

This means that the:

- MABAS Division Dispatch Roll Call policy needs to be changed and approved
- MIMABAS Communications and Dispatch Plan needs to be updated with the policy change

The Exec board roll call was so easy yesterday now that we don't have everyone smashed into one call.

Everbridge: Keeping this up-to-date with any changes

Division exercises:

Mike Evans wants to discuss the notification process for MABAS assets BUT...he has to go to Europe for the next 3 weeks.

Particularly with the upcoming Oakland exercise and future incidents.

- Would it not make sense for Livingston to contact Oakland directly for the TRT team?
- I kind of agree with this as well if I were an IC and knew the location of MABAS assets on the directory, why would I waste time with the RED center and slow down the response?
- Couldn't the IC notify RED on the MABAS DSP talk group that MABAS assets are being deployed?
- Erik has been teaching the MABAS 101 classes that it is okay to go division to division for assets. Just at some point notify the RED center.

April 19th around 0900 - Livingston Co will call RED center due to bldg collapse and req 3201 TRT team. There is no equipment deploying. Just the team to the POD to see how long and get the paperwork moved to people.

Sept 2024 - DATE TBD - Oakland TRT will respond to the collapsed bldg in Rochester. They will request agencies to deploy teams and do operational periods to make sure transfers work. Bigger event to happen.

MABAS 101:

Having issues with communication from 3701 HZMT and TRT to participate in the Escanaba scenario. May have to reach out to divisions to play with the strike team response?

- Escanaba 4/27 0730-1300 and 2nd class 1400-2000 -
- Escanaba 4/28 0730-1300 and 2nd class 1400-2000 -
