Exec Roll call / Planner RRC roll call / Div Dispatch Roll call: Division Dispatch is June 12th at 0645. I will be sending out an email to the directors as a reminder.

Planning Coordinator and RRC is June 12th at 1130.

Everbridge: We did DC Everbridge training on May 28th. This lasted about 2 hours and the group performed 2 scenarios. We discussed ways to improve the DC Workbook and are in the process of making changes based on suggestions.

The next training is July 16th at 0830. If you did not get an invite and wish to attend, please let Erik know.

Member directory: Gabie is keeping this up to date. One of these days I will get some free time to work with her on this.

Suggestion to add a tab and put all the agencies from each division into an alphabetical order that can be searched. This creates one more database to maintain and making links to all the tabs could be a cumbersome time.

For now, CTRL+F will open a small window in the upper R corner.

This searches that page for a word or number you enter. Clicking the three dots will allow you to search the entire document for words or numbers.

Division exercises:

Sept 2024 - DATE TBD - Oakland TRT will be responding to a bldg collapse in Rochester. They will be requesting agencies to deploy teams and do operational periods on this day.

MABAS 101: DTW had 48 signed up and 39 attended. I am out of swag for the next class on Monday....

The class was well received. We had an issue in the RED center with the notification process, Kaylee is handling this with the staff. Evans and I were able to recover the process and continue with the scenario with the class bringing in the Macomb Co Hazmat team.

MI-TF1 Plans Team Managers:

Have started the after action report process for the Texas deployment. Met with EMHSD this week to discuss the EMAC deployment process.

PTM/TIS quarterly training next Friday (7th) to review lessons learned from Texas and work at being better prepared.

Comms - pushing to complete the small MRP Comms caches. A training/work day has been set for June 15th.

UAS - Still waiting on word from the manufacturer of the Teal Drone regarding its major malfunction. Crews conducted several Operational Review sessions (training) during the Texas deployment downtime and worked on nite operations, victim locating and GPS coordinates conversions.

Incident Support Team: We continue to stay engaged with EMHSD IMT Coordinator Liz Reimink. They are working on some changes to the program guidance. During our discussion this week with EMHSD, we compared the level of incident support command and control to what we would have in Michigan if/when a large-scale event were to occur. We plan on continuing this discussion to see how we could assist with this.
